isbn:9780803975255

Michael Billig presents a major challenge to orthodox conceptions of nationalism in this elegantly written book. While traditional theorizing has tended to the focus on extreme expressions of nationalism, the author turns his attention to the everyday, less visible forms which are neither exotic or remote, he describes as 'banal nationalism'. The author asks why people do not forget their national identity. He suggests that in daily life nationalism is constantly flagged in the media through routine symbols and habits of language. Banal Nationalism is critical of orthodox theories in sociology, politics and social psychology for ignoring this core feature of national identity. Michael Billig argues forcefully that with nationalism continuing to be a major ideological force in the contemporary world, it is all the more important to recognize those signs of nationalism which are so familiar that they are easily overlooked.

评论

nationalism as a form of ideology that may operates out of consciousness

Homeland Deixis, hot and banal nationalism

看过这本书的人怎么那么少……

背景设定为西方民主国家

"History has created nations and, in time, it will unmake them." However, rather than as claimed by postmodern theorists, here still stand the constantly flagging of nationalism, in a banal way.

挺有意思的，从中可见国家主义建立机制之无所不在无孔不入

观点挺好的。

The routinization of national symbols in everyday lives. And the radical assertion that nationalism is the endemic ideological condition of modernity.
最近既不civic也不banal，Billig又火了一把。

Accessible, interesting but with no solution

Patriotism is offensive; Nationalism is aggressive

unwaved flags应该算是重点了。在书中多次强调。
