Thoroughly updated and revised

A clearly structured and colourfully illustrated guide to the differential diagnosis of symptoms commonly seen by community pharmacists.

Organised by body system, each chapter begins with a system overview and a brief guide to history-taking.

Each symptom or condition examined according to background; prevalence; aetiology; arriving at a differential diagnosis; questions to ask the patient, and conditions to eliminate.

From reviews of the first edition

'Paul Rutter's timely book provides a well-structured guide to making differential diagnoses ... The comprehensive text is easy to read and there are many excellent illustrations. ...
