著者:Johannes Wilbert

出版者:Yale University Press

出版时间:2009

装帧:Paperback

isbn:9780300057904

"This book is a comprehensive ethnographic survey of the uses of tobacco in nearly three hundred Indian societies in South America...This meticulously written book ...is an awesome piece of scholarship which should be of interest not only to Wilbert's fellow anthropologists but also to scholars in medicine, pharmacology, and history, especially ethnohistory."-Virgil J. Vogel, Ethnohistory
