In Postsocial History: An Introduction, historian Miguel A. Cabrera points to the crisis of modernity as a locus for the collapse of social historical models. Previously established theories of social change and social relations are proving insufficient, calling for the emergence of a new social historical theory. By arguing convincingly for the inclusion of language in that model, Cabrera awakens a revolutionary new approach to historiography. The book will prove indispensable to historians, and to social scientists in general, who are dissatisfied with the old paradigms and seek new ways of addressing the challenges of social research.
