The only comprehensive guide for socially and environmentally responsible consumers available, this book ranks every product on the shelf from A to F so you can quickly tell the "good guys" from the "bad guys" -- turning your grocery list into a powerful tool to change the world. Representing over seventeen years of distilled research, data is organised into the most common product categories including coffee, energy bars, computers, petrol, clothing, banks, cars, water, and more. Also included is a summary of the essential information about particular product categories, profiles of the best and worst companies, practical buying tips, and the most useful on-line resources available. Whether you believe in environmental sustainability, human rights, animal protection, community involvement, or social justice, this book is for you! Small enough to fit in a back pocket or small handbag and organised in a shopping-friendly format, this guide will help you to change the world as you shop!
