Eunichism was a subject which both intrigued and embarrassed the ancient world. The special virtue attributed to the castrated male at court, of undistracted loyalty to their master, aided the promotion of numerous eunuchs to positions of great power. Such eminence provoked resentment and a whole class of literary discourse developed, reviling and occasionally defending these half men'. Here, 12 new studies explore how eunuchs were perceived as well as aspects of their life and role within society.

而这本就比较天马行空了，各个文明的太监都有所涉及，亚历山大斐洛那篇挺有意思，从来没想过从性别理论的角度去写太监
