Since the end of the Cold War, Turkey has moved from the periphery to occupy the very center of Eurasian security. It is a critical participant in NATO and aspires to become a member of the European Union. The pivotal role that Turkey plays in Southeastern Europe, the Middle East, and the Caucasus has profound implications for the international arena and spawns vital debates over the directions of Turkish foreign policy. The Future of Turkish Foreign Policy explores these debates and the interactions between Turkey's domestic and foreign policies at the beginning of the twenty-first century. Contributors to the book include some of the foremost scholars and exponents of Turkish foreign policy. Their analyses reveal the complexity of the challenges that confront Turkey's foreign policy and suggest creative and resourceful strategies for resolving its policy dilemmas.
