Claim the Iron Throne and the Lands of Westeros.

It is a time of battle, deadly intrigue, and epic strife. The War of the Five Kings rages across the Trident riverlands, the Wildlings are massing north of the Wall, and the spectre of winter is casting its frozen tendrils across the land. In the sun-kissed south, the ancient House Martell once again moves to intervene in the affairs of Westeros, something it has not done since the line of Targaryen kings was defeated. Prince Oberyn Martell, also known as the Red Viper, seeks bloody justice for his murdered sister, while others of House Martell have more secret plans for Westeros and the future

of the Iron Throne. As the autumn wanes, the spears of the sun are mustering to make war once again in the Boneway and on the Sea of Dorne.

The A Clash of Kings Expansion is an exciting addition to your A Game of Thrones board game. A Clash of Kings allows players to play A Game of Thrones with six players (adding the House Martell), use mighty Siege Engines and seaports, build defensive Fortifications, and much more. Specifically, A Clash of Kings includes the rules and components needed to explore the following game options:

- \* The new House Martell (for playing the game with 6 players; includes new cards, tokens, and a large gameboard overlay)
- \* An alternative higher-powered set of House Cards for all six Houses
- \* Rules and components for managing the ports of Westeros,
- \* New wooden tokens for the powerful but vulnerable Siege Engines
- \* Wooden Fortification tokens
- \* Special order tokens for every house

You will not be able to enjoy A Clash of Kings unless you already own the A Game of Thrones Board Game.
