PRINCIPLE CENTRED LEADERSHIP will help solve these dilemmas - and many others: \* how do we achieve a wise and renewing balance between work and family in the midst of constant pressures and crises? \* how do we unleash the creativity, talent and energy of the vast majority of the work force, whose jobs neither require nor reward such resources? \* how can we have a culture characterised by change, flexibility and continuous improvement and still maintain a sense of stability and security? \* how do we create team spirit and harmony among people and departments that have been criticising and attacking each other for years? \* how do we get people and culture aligned with strategy, so that everyone in an organisation is as committed to the

strategy as those who formulated it?
