Through the words and circumstances of the terminally ill, Lessons from the Dying immerses the reader in the wisdom of the dying and in our own mortality. The dying speak to us in direct and personal ways, pointing toward a wise and sane way to live. In language we can all understand, Rodney Smith extends the conversation about death to people of all ages and states of health. Through exercises and guided meditative reflections at the end of each chapter, these lessons of the dying become a blueprint for our own growth.
