This book is a unique resource for anyone wishing to bring a foreign language into the classroom. The teacher does not need to speak French in order to use this resource to it's fullest. The book is divided into thirteen units. Each unit focuses on a different topic,

such as days of the week, weather, common phrases, animals, and more. Your students will learn French through games, activities, cue cards, and fun classroom experiences. The activities in this book will not only delight the young students, but will also inspire the classroom teacher
