著者:Adrian Desmond

出版者:University Of Chicago Press

出版时间:1992-5-15

装帧:Hardcover

isbn:9780226143460

Looking for the first time at the cut-price anatomy schools rather than genteel Oxbridge, Desmond winks out pre-Darwinian evolutionary ideas in reform-minded and politically charged early nineteenth-century London. In the process, he reveals the underside of London intellectual and social life in the generation before Darwin as it has never been seen before. "The Politics of Evolution is intellectual dynamite, and certainly one of the most important books in the history of science published during the past decade."--Jim Secord, Times Literary Supplement "One of those rare books that not only stakes out new territory but demands a radical overhaul of conventional wisdom."--John Hedley Brooke, Times Higher Education Supplement
