What happens when a thug robs a thug? It was one thing for broke and hungry William Earl Holly, an ex-con, four months fresh out of state prison, to rob, Monica Sparks, Queen City dope girl on the low, by taking her coke, cash, and chromed-out Benz 190. But it was another thing altogether when William put his hands on her child in the process. In the eyes of Monica and her thugged-out associates, that was a fatal mistake. One that they were all determined to have William answer for. But first, William had to be found. Follow new author, Kareem Tomblin as he weaves an exciting tale about revenge and how one negative action can destroy the lives of those involved due to retaliation. As Monica search for William, drama ensues and the hood will never be the same.
