All it took was one scone. Tainted icing triggers a rare allergy, and a hobbyist croaks at a scrapbooking crop sponsored by Time in a Bottle, the store where Kiki Lowenstein works. When it comes out that someone swiped the victim's emergency medication, the scrappers realize they have a murder on their hands, and the entire community jumps to point the finger at Kiki and her coworkers. Suddenly, the one anchor in Kiki's stormy life is on the verge of sinking beneath a ruined reputation. But who wouldn't want to kill Yvonne Gaynor? The nasty woman had enough enemies to fill a memory album. Once again, Kiki gets sucked into a mystery that should be left to that dreamy detective, Chad Detweiller - who hasn't tried to kiss her yet. With anti-Semitic threats coming in at the store, a quarrelsome teen daughter at home, and constant financial pressure, Kiki needs to keep her cool if she's going to set things right.
