I glanced over at Caleb. His face was a mask of concern. The noise was becoming deafening. Something prompted me to turn and look behind us, and what I saw chilled me to the center of my being. Gripped by icy fear, I opened my mouth to say something but I couldnat get anything to come out. Finally forcing my brain into action, I yelled, aCaleb a He didnt hear me. My voice was weak and the steadily increasing wind threw the word back into my face. aCALEB a Fear gave me volume. He looked at me and I pointed behind us. There, on the horizon, was a cyclone A twisting, undulating dark devil. Still several miles away, but definitely heading in our direction. Based on true events, Prairie Sunsets picks up two years after Prairie Whispers, and continues the adventures of the McKay family as they struggle to maintain their life on the prairie of Nebraska.
