This car started out with the name Celica Supra but is a very different car from the ordinary Celica. The Mk II models were on sale from 1982 to 1985 and had a major

redesign in 1986. This produced a car which was smoother and more rounded in shape but retained a look which hinted at the power and performance available. At the start of 1993 the radically designed Mk IV appeared which was lighter and, with a 3-litre engine, had agility and precise handling. This is a book of contemporary road and comparison tests, new model introductions, driver's impressions, buying second-hand, track tests.
