David Rhodes's long-awaited new novel turns an unblinking eye on an array of eccentric characters and situations. The setting is Words, Wisconsin, an anonymous

town of only a few hundred people. But under its sleepy surface, life rages. Cora and Graham guard their dairy farm, and family, from the wicked schemes of their milk co-op. Lifelong paraplegic Olivia suddenly starts to walk, only to find herself crippled by her fury toward her sister and caretaker, Violet. Recently retired Rusty finds a cougar living in his haymow, dredging up haunting childhood memories. Winifred becomes pastor of the Friends church and stumbles on enlightenment in a very unlikely place. And Julia Montgomery, both private and gregarious, instigates a series of events that threatens the town's solitude and doggedly suspicious ways. Driftless finds the author's powers undiminished in this unforgettable story that evokes a small-town America previously unmapped, and the damaged denizens who must make their way through it.
