The paper is extremely easy on the eyes and can improve your reading and writing since there is no conflict between the lines and the pen. What you write down practically rises from the paper and becomes very clear. The principle is very straightforward but also very effective: on Whitelines(R) paper there are no dark interfering lines but instead . . . just white lines. Yes, it's that simple: dark lines distract; white lines don't. By new thinkers, for new thoughts. Whitelines(R), supporting your ideas. Improves reading and writing Easy on the eyes with less glare Whitelines(R) is the first in the world to print its carbon footprint on each product. Using local production methods and carbon neutral paper, each notebook is produced with very low carbon dioxide emissions. Now the next step has been taken toward zero carbon emissions "Scandinavish" design: clean white with a distinct orange line makes for one cool notebook /* Style Definitions */

Since grown-ups and college students also found the books attractive, they have become a popular product not only for school kids. The notebooks are stapled and have thinner covers than the other covered books. Remember your blue examination books? Hopefully these will reduce the anxiety (a little) for a new generation of test-takers /* Style Definitions */
