Norwegian, the official language of Norway, is spoken by more than 5 million people world-wide. This comprehensive bilingual dictionary features approximately 18,000 total entries, which include pronunciation, common expressions, and sentences demonstrating proper usage. It is specially geared towards contemporary speakers of Norwegian and English, with numerous entries relating to modern business, medical, and technological vocabulary for those travelling or working in both Norway and the United States. A concise pronunciation guide and a section devoted to the pronunciation of irregular words are also provided.
