Who would sever a tongue from a living mouth? Or kill a pathetic, homeless old man? Or frighten a young doctor into silence? The questions are piling up, and Doug McHarg

can?t stop asking them, even?especially?when he's warned off his inquiries by his boss in the local police force, by Scotland Yard, and by increasingly professional death-threats. The pattern that emerges is that of a shadowy, immensely powerful organization, with a reach that extends to the White House and the English throne. And all that stands against them is the implacable McHarg?one discontented copper with little left to lose. Best-known for his award-winning series featuring Dalziel and Pascoe of the Mid-Yorkshire CID, in Who Guards a Prince Reginald Hill takes on a different kind of cop and a very different bad guy. The Philadelphia Inquirer called the book ?a good old-fashioned thriller, ? but in truth, that doesn?t begin to describe the ride.
