The Lake Shore Electric Railway commenced operation in 1893 on the north coast of

Ohio, providing transportation to Cleveland, Lorain, Sandusky, Toledo, and on to Detroit, Michigan. The Lake Shore Electric Railway connected with many other electric railroads to offer a comprehensive quilt of transportation. This allowed increased commerce, ease of transportation, and access for the industrial-era family to visit such recreation spots as Linwood, Crystal Beach, Avon Beach Park, Mitiwanga, Rye Beach, Ruggles Grove and Beach, and Cedar Point, among others. An unimaginable feat in the late 1800s, the Lake Shore Electric could travel from Lorain to Cleveland (approximately 30 miles) in under one hour, making the railway a huge success. Unfortunately this success only lasted about 40 years.
