Perfect for the youngest naturalist, Who Lives Here? is an engaging visual journey to the habitats of a variety of creatures. I'm very tiny and I have a long beak, just right for drinking the nectar from flowers. What am I? Inviting riddles introduce facts about each creature and invite children to guess which animal the clue is for. Lift-the-flaps reveal the answers. Includes a glossary with more information in the back of the book.

Frankly speaking, a little bit boring. Not sure children can stand it.
