With over 70 illustrated tutorials, 11 new techniques, all-new screen shots and step-by-step instructions with download able examples. This revised edition of Duncan Evans and Tim Shelbourne's outstanding photo guide will help readers master the latest Photoshop software - and create distinctive photographed portraits. Photoshop can enhance even the well-shot image and Evans and Shelbourne teach photographers of all levels how they can use it to generate mixed lighting effects that

would otherwise require an expensive studio, produce high-key or low-key styles, retouch facial features and blemishes, isolate and emphasize the subject, optimize monochrome effects and much more.
