New York career woman Stacey Knight marries James Makepeace just as she learns he's been offered the once-in-a-lifetime opportunity to run a major Hollywood studio. There's one catch: they must relocate to Los Angeles. Will Stacey be lost in translation, or will her hard-earned New Yawk survival skills prove yet again, as Ol' Blue Eyes so often said, if you can make it there, you can make it anywhere? The unwitting newlyweds land in a Technicolor high-stakes Social War, pursued by ruthless power brokers in the film demimonde. What's a girl to do when the promise of a glittering blockbuster future descends rapidly into film noir despair? At once seduced and repelled by the rigid caste system and predatory aspect of Hollywood life, Stacey navigates a sea of confusing social obstacles and extremely bad behavior. Empowered by 2,500-year-old military strategist Sun Tzu's "The Art of War," Stacey takes control of the War Game and learns that they must adapt to survive and attack if they are to thrive.
