Size Matters! Award-winning author and illustrator Christopher Wormell sinks his teeth into a new favorite subject--dinosaurs! Wings, Horns, & Claws is an affectionate pictorial tribute to those prehistoric animals, who grow with every turn of the page reinforcing the cognitive learning concept of size and proportion. Wormell's trademark beautiful woodcut illustrations are paired here with very detailed descriptions of his subjects. His unique vision and incredible artistry elevate this book above the crowd of volumes devoted to the Earth's coolest creatures. A great choice for kids and even adults who can't get enough of these prehistoric reptiles.
