""Green is good and green is fine, But there must be more to this life of mine. "" The caterpillar finds his life very dull, so he "eats" his way through the pages of this book in search of more exciting colors in his world. Kids of all ages will adore this springtime tale that includes a plush caterpillar that "chomps" his way through this book as the pages are turned. The caterpillar's adventures lead him to a new life he never knew existed. Each page is filled with delightfully vibrant and adorable illustrations that capture the eye. Read-along rhymes let everyone join in on the fun, and book includes a surprising, pop-up finale
