A compelling, honest story of one American family already struggling with undiagnosed Lyme disease that is forced to deal with a myriad of unexpected issues, and then is hauled through the family court system and crucified for having that illness. The story touches on the very real aspects of a complex and controversial disease. Embracing tabu subjects, it paints a clear portrait of the face of Lyme Disease, and the discrimination of its patients in many arenas. "I had this experience before in the presence of very rare and very special people--individuals with a very rare prophetic genius. I sensed I was witnessing the birth of someone who possessed many rare gifts, which when fused, become a spokesperson for millions. PJ Langhoff is that person."
-James L. Schaller, MD, MAR
