isbn:9781552637678

More than 20 years after its original publication, Dennis Lee's classic The Dreadful

Doings of Jelly Belly continues to enchant readers of all ages with its irresistible mix of modern humor and traditional Mother Goose charm. His rollicking, raucous poetry is laugh-out-loud funny, yet simple enough for even the youngest reader to follow. Nora Hilb's vibrant illustrations are the perfect match for Lee's whimsical, sometimes deliciously gross text. Available for the first time in a sturdy board book format, the poem stands ready to capture a new generation of young — and young-at-heart — readers.
