In The Electroline Diaries, author Laurent Bagnard and his trusty Nikon F2 follow the Choppers on a journey through southern California, Las Vegas, and even a huge hot rod show in Yokohama, Japan, where the Choppers were guests of Mooneyes, the

famed speed parts company. He captures the Choppers in their element--hanging out with fellow hot rodders, catching their favorite bands, traveling to car shows far and wide, and cruising in their cool-as-hell hot rods. The Electroline Diaries is a window into the unique lifestyle of the Choppers that has influenced gearhead culture around the world. Burbank Choppers celebrates today's kustom kulture from an insider's perspective, and is sure to become a landmark of car and pop culture.
