Is environmental education succeeding in producing an eco-aware and conscientious

population, or has it flat lined? Lavishly illustrated and packed with fun-filled outdoor educational activities, *As If the Earth Matters* shows how through immersing our children in the beauty of nature, we can motivate them to take an active role in conservation. Perfect for parents, teachers, camp leaders, and nature clubs, this book reawakens a childlike joy and sense of wonder in the natural world. Thom Henley and Kenny Peavy have introduced thousands of students to the wonders of nature. Henley is the author of nine previous books.
