著者:Lipshitz, Howard D. 编

出版者:Springer

出版时间:2007-12-6

装帧:Paperback

isbn:9781402063435

This second edition collects Nobel Prize winner Edward B. Lewis's key publications in the fields of genetics, developmental biology, radiation and cancer. Editor Howard Lipshitz, a close colleague during the last 20 years of Lewis's life, places the papers in their scientific and historical context and provides insight into Lewis's approach to science and the motivations that drove his choice of subject matter.
