Dale Carnegie, the legendary author of How to Win Friends and Influence People, is perhaps the most well-known personal development author of all time. His legacy has influenced generations of people through the training his organization-Dale Carnegie Training-provides. Now his flagship training course, which has helped tens of thousands of people world wide, including U.S. presidents and Fortune 500 CEO's, is available for the first time as an audio course. This system would normally be very expensive and take weeks to work through. Stand and Deliver is available at a fraction of the cost and holds all the secrets that listeners need to be on their feet and presenting like a professional in no time at all. Starting with the basics, and moving quickly into actually delivering speeches, listeners will use sophisticated techniques like voice modulation and idea pyramids to make the biggest impact and most persuasive connection with their audience
