Let the European expedition begin The continent of Europe includes more than 40 countries and is home to some of the most interesting landforms on Earth. Concise text, easy-to-read maps, and fascinating full-color photos provide kids with an overview of this interesting continent. Topics include- the natural border between

Europe and Asia- Europe's many peninsulas, mountain systems, and other landforms- how Europe's location on Earth affects the continent's climate- European bodies of water, including seas, lakes, rivers, and bays- the tundra, steppes, forests, and the living things in these biomes
