aFew cities,a writes Phillip Lopate in his introduction to this historic anthology, ahave inspired as much great writing as New York.a Here Lopate and The Library of America present a sweeping literary portrait of the city as seen through the eyes of over a hundred writers. Residents and tourists, novelists and poets, architects, politicians, social reformers, naturalists, humoristsain unexpected and dazzling ways the writers in this volume take on the challenge of capturing New Yorkas enduring spirit, its constantly changing public spectacle, its gossip, amusements, hard-luck stories, and tragedies. This paperback edition includes an expanded introduction and additional selections be Don DeLillo, Colson Whitehead, and Vijay Seshadri, bringing the story up to the present.
