Take your understanding of histology one step further with this set of Flash Cards. Specially designed to help you master what you need to know, these cards are designed to reinforce your understanding of how the human body works in health as well as illness and injury. Classic illustrations from medical illustrator Frank H. Netter, MD provide strong visual aids and memorable diagrams to facilitate learning. Extensive additional images including light and electron micrographs, provide an even more comprehensive study experience.

Over 200 concise, beautifully illustrated cards highlighting salient microscopic features of cells, tissues, and organs of the body.

At-a-glance organization to help you recognize and interpret microscopic sections quickly.

Detailed coverage of basic biological and histological principles.

Reinforce knowledge of clinical relevance of histological structure and function.

The perfect companion to the Netter's Essential Histology text, from the same trusted authors.

Completely cross-referenced to the Netter's Essential Histology text, for even more crucial information.
