Civilizational Dialogue and Political Thought: Tehran Papers gathers together Islamic and Western scholars to answer the call of Mohammed Khatami, former president of Iran, and the United Nations General Assembly for a 'Dialogue of Civilizations,' a global dialogue for peace. Based in international relations, comparative politics, political theory, and philosophy, the essays in this collection stand in direct challenge to Samuel Huntington's 'clash of civilizations' thesis. They testify to the urgency and the viability of the agenda of civilizational dialogue as a guidepost and ethical paradigm for the global community.
