Masaru Emoto became interested in the life energy in water and began to investigate the crystallization patterns of water from pure and polluted sources. He discovered that the patterns are influenced by negative and positive words and thoughts. This extraordinary cutting edge book looks at the power of water from the perspective of science, healing and mysticism. It will include contributions from leading scientists such as Bill Tiller who was featured in the film "What the Bleep" and Rustum Roy alongside contributions from spiritual teachers such as Doreen Virtue, Starhawk, William Bloom and Sig Lonegren.
