You know that your dog's hearing is very sensitive?so how do you create an environment of sound that suits your canine companion's specific needs? Now psychoacoustic expert Joshua Leeds and veterinary neurologist Susan Wagner provide the answer with Through a Dog's Ear: simple sound-based solutions to help your dog live a longer, happier, and healthier life. Using the latest science on how dogs hear and react to sound, Leeds and Wagner provide a treasury of fresh insight on the inner life of our best friends, including: Sound ideas for nervous dogs: tips and tricks for making any house or apartment more comfortable for canines How sensitive is your dog? The unique ways that different sizes, breeds, and individuals respond to sound Turning

sound into a tool to overcome separation anxiety, food aggression, thunderstorm panic, and other behavior challenges 45-minute CD of music psychoacoustically designed for dogs
