Rights of the Elderly provides an overview of the history of this timely topic and the opinions surrounding it--from the Social Security Act of 1935 to the current activism of groups such as AARP and the Gray Panthers. Examining recent court cases such as Kathi Cooper et al. v. IBM Personal Pension Plan and IBM Corporation and documents such as The Age Discrimination in Employment Act of 1967, this new volume provides multiple perspectives and decisions surrounding this issue while also plotting a course for the future of legislative action. A comprehensive and up-to-date overview essay, capsule biographies, a large annotated bibliography, a chronology of significant events, organization and agency listings, and a glossary provide useful information for students, teachers, librarians, older persons, activists, policy makers, and the general reader interested in this controversial issue.
