The author of "The Ex Files" returns with another entertaining astrological guide - this time for women who want to understand their ex-boyfriends. Astrologically sound, yet irresistibly cheeky, "The Ex-Boyfriend Book" helps ladies answer the complicated questions that follow a break-up: What went wrong? Can we stay friends? Why was I ever attracted to that

freak? Rowan Davis reveals the relevant, often sordid, details on all twelve Sun signs. Discover cosmic insights into your ex's personality, including what you'll miss about him and what you'll be glad to leave behind. Find out how to win him back or make sure he stays the hell away. There's also insight into how your Sun sign will handle breaking up.
