In this colourful and inspiring book, Cendrine Armani suggests designs for fifty-six bags,

purses, cases, jewels, hats, boots, shoes and scarves which you can make using felt - a rich, natural fabric that is beautiful to work with, and conveys gentleness, warmth and comfort. Each item is created using the soap felting technique, with the needle technique used for decorative motifs and other elements. Both these techniques are explained clearly using more than seventy-five step-by-step photographs. The designs are divided into nine unique themes, ensuring that there will be something in this book to suit every style or occasion. It is: bold and bright; useful and practical; trendy; filled with butterflies; romantic; contains snug shoes for girls; retro; oriental; and, contains snug shoes for boys.
