There's more than a kernel of truth to the fact that many things only improve with age. Just like the antiques and collectibles it identifies, the world's longest-running antiques price guide continues to get better with time. Warman's Antiques & Collectibles 2009 Price Guide boasts a feast of 2,400 color photos, an easy-to-use color-coded catalog format, tens of thousands of detailed listings for furniture, glass, ceramics and toys, a chapter on fakes and reproductions, and exclusive market trend reports written by expert appraisers and collectors.
