This updated manual prepares high school students for the preliminary version of the SAT college entrance exam (PSAT). The test also functions as the National Merit Scholarship Qualifying Test (NMSQT), giving students a chance to qualify for valuable

college scholarships. Barron's updated edition of this manual presents one diagnostic test plus four full-length model tests, all with explained answers. Students will also profit from subject reviews that cover all test topics and include many practice exercises with answers. Topics covered are critical reading, mathematics, and writing skills. The enclosed CD-ROM presents two more full-length model tests in the computerized format with automatic scoring.
