Car collecting has now moved from a hobby to a business, with popular cars being resold for over one million dollars! This book is aimed at making just such a rewarding purchase possible. For anyone considering buying a collector car - both for profit and

pleasure - veteran appraiser and restorer Steve Linden clearly outlines the pitfalls to avoid, rules to follow, factors to consider, terms and procedures. His book provides an introduction to the process of buying a collector car, with sections looking at special issues that arise before, during, and after a purchase, plus a wealth of general, practical advice culled from over twenty years experience in the business, questions, personal anecdotes, buyer beware stories. Choosing and locating the right model, budgeting, purchasing at auction - both on-line and in person - insuring, restoring, maintaining: Linden addresses all these topics in an expert and accessible way. His book also contains helpful checklists plus a glossary and a complete index of resources. The result is a unique and valuable reference, and one that no collector or prospective buyer should be without.
