Whether you are looking for unfussy kitchen curtains, elaborate dining room curtains, simple sheers, or sophisticated blinds, you will find the answer in So Simple Window

Style. The projects include ideas for novice sewers, such as tie-top curtains, bead-trimmed panels, and unlined blinds. The basic techniques chapter has all the information a beginner needs to start decorating windows. There are also advanced projects, including contrast-lined panels, double-sided blinds, and bordered curtains, plus solutions for awkward-shaped windows or slanting attic windows. With ideas for tiebacks, valances, and pelmets, you can add perfect finishing touches to your creations. • 30 step-by-step projects, plus instant makeovers and variations. • Advice on choosing window treatments that complement the colors and architecture of a room, and tips on fabrics and trimmings.
