Filling a crucial need, this book presents a time- and cost-effective therapy program oriented to the concerned significant other (CSO) who wants to motivate a family member or partner to seek help. Community Reinforcement and Family Training (CRAFT) is a nonconfrontational approach that teaches CSOs how to change their own behavior in order to reward sobriety, discourage substance use, and ultimately to help get the substance abuser into treatment. The CSO also gains valuable skills for problem solving and self-care. Step-by-step instructions for implementing CRAFT are accompanied by helpful case examples and reproducibles.
