With an emphasis on relevance, this book tailors English instruction to the needs of police training and law enforcement. Taking a building block approach, the first five chapters present English grammar and the last two chapters are devoted to the police report writing process. Each chapter includes practice and review exercises that are taken from the field and assignment material that is geared to law enforcement interests. This edition features sample reports, sample forms and "war stories" that help students see how grammar and writing skills are used in their profession.
