This volume provides a dedicated mailing and e-mail campaign to targeted business related media & organisations. This intelligent volume explores the roots of high-performance materials management in order to guide today's professional toward using the right process controls at the right time. Written in a practical, easy-to-understand manner, it describes supply chain management best practices and delineates a variety of important Lean and Class A metrics as tools for achieving maximum effectiveness. It also covers all the management systems that are essential to high performance, such as sales and operations planning, clear-to-build, and process ownership, along with the role of the materials manager in gaining maximum effectiveness from these tools.
