Forty years ago the University of California Press published an unusual manuscript by an anthropology student named Carlos Castaneda. "The Teachings of Don Juan" initiated a generation of seekers dissatisfied with the limitations of the Western worldview. Castaneda's now classic book remains controversial for the alternative way of seeing that it presents and the revolution in cognition it demands. Whether read as ethnographic fact or creative fiction, it is the story of a remarkable journey that has left an indelible impression on the life of more than a million readers around the world.

评论

最不喜欢的是后面画蛇添足的所谓学术性结构分析，倘若讲的是这些奇妙的体验对后来个人生活的影响该多有趣。对于恐惧和nonordinary reality的讨论不错。
