Calling all lovers of letters and logic! Here comes the latest twist in mental gymnastics:

BoGGLE Crossdoku . It’ s entertaining, it’ s challenging, and it’ s a great new way to enjoy Hasbro’ s bestselling game (which sold 800,000 units in 2006 alone). The fun starts with a partially filled grid of letters; your job is to figure out the location of the remaining letters and complete the grid. Solvers will need to call on all of their powers of deduction to solve these power-packed puzzles, which contain interlocked words going in two directions.
